Depending on the application a battery can reach its normal end of life before the end of the Applicable Warranty Period. Therefore Exodus reserves the rights to deny a warranty claim if it determines the battery to be at its normal end of life, even if the claim is lodged within the Applicable Warranty Period.

If the battery is determined by Exodus, in its sole discretion, to be defective for material or workmanship under terms of this limited warranty, it will be replaced or repaired. A history of latest 90 cycles/days must be stored and documented for review.

Battery application, sizing, charge and discharge currents and other related systems must be approved by Exodus.
